## JUST A THOUGHT

When the check engine light comes on in a car, it is not the cause of the issue within the vehicle. That light reveals a symptom that something is wrong and needs to be reviewed, checked, and corrected. Doing good deeds for God isn't what gets a person into Heaven or having eternal life. Much like the check engine light, except this is positive, good deeds only reveal that something amazing is taking place in the person. Because they have a connection with God, their work and actions show the Creator's love. Often, we focus on doing the work and believe that will get us into Heaven. It won't. It's evident a relationship and connection with Jesus Christ are the way to get to the ultimate goal.
